

# IHOR IVLIEV

## Full-stack developer

### Summary

I'm a Full-stack JS | TS developer with over a year of experience in web development. I have experience developing projects from inception to deployment. I'm adept at making independent decisions during project development and selecting the best methods for optimization because I understand the importance of well-optimized and scalable projects. I'm always ready for new challenges and eager to master new technologies.

### Skills

Sass

React

Redux

Vue

Pinia

TS

TypeScript

NodeJS

NestJS

PostgreSQL

Firebase
